

For Immediate Release

**Adonix Named to *MSI Magazine's* Top 100
Global List Ranks World's Largest Manufacturing Application Vendors**

Pittsburgh, Pa., July 15, 2004 – Adonix (www.adonix.com), a leading provider of integrated enterprise software solutions for mid-market companies, today announced that *MSI Magazine*, a manufacturing and information technology magazine published by Reed Business Information, has named Adonix to its ranking of the world's Top 100 manufacturing software vendors.

The *MSI* Top 100 list ranks the world's leading application vendors that develop solutions targeted at the manufacturing software marketplace. The annual rankings are based on 2003 total company revenues, including software license, implementation, maintenance and support fees. *MSI* compiles the list from an industry survey and additional market research.

Adonix' 2003 annual revenues ranked it the 58th largest application vendor on the *MSI* Top 100 list. Of the system categories included, Adonix ranked 16th in the "Enterprise Suites" section, while its 50 percent year-to-year revenue growth rate was second highest in this category.

"We have made significant strides to become one of the leading global ERP players since initiating our growth strategy in the late 1990's," said Alex Attal, CEO of Adonix North America. "This recognition validates our value proposition of delivering highly functional and affordable solutions for targeted mid-sized businesses – including industry-specific capabilities from acquisitions – developed using our advanced Adonix X3 technology."

Adonix' flagship product, Adonix X3, is an integrated enterprise resource planning (ERP) suite with modules focused on manufacturing, warehousing, distribution, customer relationship management and accounting. The Company's data collection, shipping and e-business systems can be added on for a complete end-to-end solution. Adonix X3 has functional depth in supporting manufacturers in configure-to-order, assemble-to-order, make-to-stock, mixed-mode, process and distribution-intensive environments.

For the complete listing of the *MSI* Top 100 and accompanying editorial profiles, please see the July 2004 issue of the print publication or visit the magazine's Web site at www.msimag.com.

About Adonix

Adonix delivers sophisticated ERP solutions and services to the underserved "Fortune 50,000" of mid-market companies. Adonix X3, the first Web-native ERP solution designed for mid-sized companies, fully integrates manufacturing, distribution, warehousing, CRM and finance functionality. Founded more than 25 years ago, the company sells both directly and through a network of resellers, system integrators and consultants and supports more than 8,000 customer installations. Adonix is the recipient of numerous industry awards including *MSI* magazine's Top 100 Software Companies five years in a row, and is one of *START* magazine's Hottest companies in 2003. Privately held, Adonix is a global company present in 18 countries with North American operations headquartered near Pittsburgh, Pa.
